### Quarterly Court Matters.

Quarterly court has been in session all of this week, Judge Breathitt presiding. About eighty minor cases have been passed upon, but nearly all of the causes, where there will be much litigation, have been left open for a hearing later on. Court will remain in session until after adjournment of Circuit Court, which holds on throughout the first week of November.

### Tobacco Market Steady.

Our market this week was steady, with light offerings and small sales. The receipts were likewise light, no new tobacco having as yet made its appearance on the brakes. Sales consisted chiefly of low leaf and lugs and prices were entirely satisfactory. The few hogsheads of good leaf offered commanded fair figures. Loose market inactive, with no quotations.

### The Sebree Coal Mine.

The shaft at the new coal mine near Sebree has been sunk to the vein of coal, which is about five feet thick, and the work of mining in earnest will begin in a very few days. A large force of hands is now at work and the number will be greatly increased next week. The coal is said to be of good quality and it is believed will be found in paying quantities.
